- 4 FAMAT Power Generation Services
- 5 Upcoming Events

FAMAT is proud to announce a new order for trunnion mounted ball valves for Phu My Power Station in Vietnam

ZUBI: simply the best diaphragm Valve!

Válvulas Zubi S.L has been manufacturing valves since 1979, focusing its activities at first on the exclusive manufacture of diaphragm valves, a field in which the company has gained a prestigious reputation. Later, it expanded its production range and began to manufacture disk check and ball check valves also. It currently offers an even wider range of products which also includes knife gate valves, wall penstocks, channel penstocks and square knife gate valves.

FAMAT teams up with ZUBI for more than 15 years for the Power Generation and other industries. Numerous plants equipped with ZUBI Diaphragm Valves for water and demineralized water applications are the proof of this enduring high quality product.

- 100% European Origin
- Short delivery times
- Up to 5 years of warranty
- Many options available
- Pneumatic/Electric Actuated

*The FAMAT « Valve Basics » Training Course
Is a perfect way to educate and inform new employees working in the valve business.*

FAMAT “Valve Basics” Training Course

FAMAT’s “Valve Basics” Training Course is a **complete INTRODUCTION TO THE VALVE INDUSTRY** and provides an excellent way to educate and inform new employees about the valve industry--its markets, history, types of products manufactured, standards and much more.

Participants receive instruction in:

- Introduction to Industrial Valves
- Various types of valves (gate, expanding gate, plug, ball, check, butterfly valves, etc.)
- Introduction to actuators (basic actuators and actuator operation)
- Introduction to applicable Valves Standards
- How to choose valves?
- Customer specific valves types in detail.

Participants receive handouts and a certificate of participation.

For FAMAT customers the “Valve Basics” course is **free of charge** and can be held in a basic module of 2 hours or a complete module of 4 hours.

If you are interested in this course please contact: [info\(at\)famat.com](mailto:info@famat.com)
